

AIDS, LOVE and...

[THE SECRET LIVES OF COLLEGE STUDENTS]

with SCOTT FRIED

This presentation connects with our hidden world, illustrating feelings of isolation and separateness; its message is a powerful one of love, sacredness and self-respect. Scott shares the story of his own risk behavior and HIV infection when he was younger and how his journey has led him to share in the lives of more than a million others as they try to make peace with life's demanding circumstances.

You'll thank yourself for showing up.

Scott is the author of My Invisible Kingdom: Letters from the Secret Lives of Teens; If I Grow Up: Talking with Teens about AIDS, Love and Staying Alive, and has also produced a musical CD, As I Grow.
